Federal Executive Leaders Councils 2003 Showcase of Excellence

The Federal Executive Leadership Councils (CIO, CFO, HRMC, and PEC), in collaboration with the FOSE 2003 Federal Leadership Program are seeking nominations for the third annual Showcase of Excellence Awards. This is an annual award given to those Federal programs/projects that best exemplify the ongoing efforts to continually improve the business of government and the delivery of services to the citizen. It is a very visible opportunity to recognize and honor programs/projects within departments and agencies. Programs/projects nominated for this award should demonstrate qualities in effective and efficient business management strategies that contribute directly or indirectly toward improving the business of government. These qualities could include, but are not necessarily limited to, efficiencies in agency operations, cost savings, customer relationships, education and training, cross agency collaboration, Federal, State and local collaboration, and electronic and other improvements in the delivery of services to the public.

This year, FOSE 2003 will help inaugurate the opening of the new Washington Convention Center from April 8th through April 10th. To ensure that nominated programs/projects are considered for the Showcase Award, and are included in upcoming FOSE literature, please submit all nominations by close of business, February 14, 2003.

From the submitted nominations, ten nominees will be selected to display and demonstrate their particular program/project in the center of the E-Town exhibit on the FOSE show floor, April 8th through April 10th (See the attached list of details for the Showcase). From the ten finalists, two will be selected by the Quad Council Executive Committee to receive the 2003 Showcase Award. Those individuals associated with each of the final ten nominees will be invited to attend the CIO Council Awards luncheon at FOSE on April 9th. The Showcase Award winners will be announced during the luncheon.

For each program/project nominated, please provide a short description of the program/project, reason for consideration, program/project personnel and contact information via e-mail to gary.winters@gsa.gov. If you have any questions, please call Gary Winters at 202-208-1045 or email via gary.winters@gsa.gov.
